ABOUT OUR COMPANY

New Zealand owned. Built for 4WD adventure.

Xtreme Gravel Gear® is a New Zealand owned and operated company specialising in 4WD suspension and off-road recovery gear. We are passionate about delivering high-quality products that meet the needs of off-road enthusiasts, trade professionals, and everyday adventurers alike. Our team is committed to ongoing research and development, ensuring our products remain at the forefront of off-road technology.

We pride ourselves on listening to customer feedback and using real-world experience to develop products that are functional, durable, and built to perform in demanding conditions. Our goal is to provide the ultimate 4WD gear so our customers can tackle any terrain with confidence.

Our product range includes shock absorbers, coilovers, leaf springs, and a wide variety of off-road recovery gear, including winches, recovery straps, and accessories. Every product is engineered to high quality standards and rigorously tested to meet our strict performance expectations.

We stand behind our products with exceptional customer service, technical support, and practical advice to help customers choose the right solution for their vehicles and adventures. Xtreme Gravel Gear® is proud to support off-road enthusiasts across New Zealand and beyond.

OUR STORY

Established in 2019, Xtreme Gravel Gear was born from a genuine passion for 4WDing and a drive to create products that could withstand harsh off-road conditions.

After years of testing, development, and refinement, the brand was officially registered as Xtreme Gravel Gear in 2022.

Built around strict personal standards for quality, durability, and performance, the brand continues to grow with a focus on real-world reliability and innovation.

GLOBAL FOOTPRINT

Regional strength. Worldwide reach.

Xtreme Gravel Gear™ is proud to be sold globally, supported by independently owned regional offices in strategically positioned markets including South Africa, Kuwait, Spain, the United States and our Head Office in New Zealand. Together, this network helps distribute our products to more than 180 countries worldwide — a testament to our continued brand development, growth and the strength of our partnerships.

Our expanding global footprint reflects the trust placed in the Xtreme Gravel Gear™ brand and our commitment to supplying high-quality 4WD suspension and recovery solutions to customers around the world. Through strong partnerships and regional support, we continue to grow our presence across international markets while staying true to our New Zealand roots.

WHY CHOOSE MOUNTAIN SERIES?

TWIN-TUBE STEEL BODY DESIGN

Robust twin-tube construction delivers superior strength and long-lasting durability.

2.25" SHOCK BODY

Large 2.25-inch shock body provides greater oil capacity for consistent performance.

35MM BORE SIZE

35mm internal bore improves oil flow and cooling for better shock absorption.

20MM HEAVY-DUTY SHOCK SHAFT

20mm shock shaft adds strength and stability when you need it most.

NITRO GAS FILLED

Nitro gas charge prevents cavitation and maintains consistent damping.

MITSUBISHI RACING SHOCK OIL

Premium Mitsubishi racing oil ensures smooth performance and heat resistance.

HIGH-QUALITY NOK JAPAN OIL SEALS & O-RINGS

NOK Japan seals and O-rings prevent leaks and extend shock life.

CONSISTENT DAMPING & HEAT RESISTANCE

Engineered for steady control and durability in the toughest off-road conditions.

PRO SERIES MONO TUBE SHOCKS

SPECIFICATIONS

A

PRO SERIES ADJUSTABLE COIL-OVER SHOCKS

Pre-assembled adjustable coil-over shock absorbers featuring a 2.5-inch shock body standard and 22 mm shock shaft, designed for rugged off-road driving. Adjustable, durable and built to deliver superior ride stability and reliability across demanding terrain.

- ✓ Adjustable Coil Spring
- ✓ 2.5" Shock Body
- ✓ (Some vehicle models use 2.25 shock body)
- ✓ Valved to suit your vehicle
- ✓ 22mm Shock Shaft
- ✓ Internal Floating Piston (IFP)
- ✓ Nitro Gas Filled
- ✓ Pre-Assembled with Coil Spring
- ✓ Lubricants and Oils by Fuchs Germany Racing shock oil
- ✓ High Quality NOK Japan Oil Seals and O-rings
- ✓ 3 Year Limited Factory Warranty

B

PRO SERIES SHOCKS

High-quality shock absorbers with a 2.5 inch shock body standard and 22 mm shock shaft, engineered for superior durability and control in demanding off-road conditions.

- ✓ 2.5" Shock Body standard
- ✓ Valved to suit your vehicle
- ✓ 22mm Shock Shaft
- ✓ Internal Floating Piston (IFP)
- ✓ Nitro Gas Filled
- ✓ Lubricants and Oils by Fuchs Germany Racing shock oil
- ✓ High Quality NOK Japan Oil Seals and O-rings
- ✓ 3 Year Limited Factory Warranty

COIL SPRINGS

ENGINEERED FOR STRENGTH,
COMFORT AND LOAD CONTROL

Xtreme Gravel Gear coil springs are engineered to deliver dependable ride height, load support and long-term durability. Built as the foundation of a capable suspension setup, each spring is manufactured from premium-grade steel, cold-wound for consistency, and load-tested before leaving the factory. Designed for specific vehicle applications and varying load requirements, Xtreme Gravel Gear coil springs help improve comfort, control and confidence on-road and off-road. Whether your vehicle is used for touring, trade or everyday driving, our coil spring range is built to perform. Backed by a 3 year limited factory warranty and supported through our dealer network, Xtreme Gravel Gear gives you strength you can rely on.

XTREME GRAVEL GEAR

RECOVERY SNATCH STRAPS

15T NYLON SNATCH STRAP

A heavy-duty recovery strap designed to help recover bogged vehicles with controlled stretch and dependable durability.

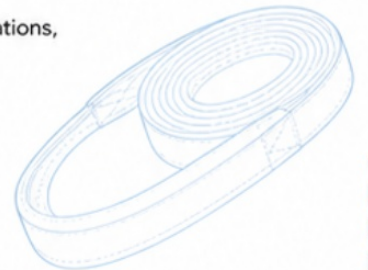

- 15T breaking strength
- Up to 20% stretch
- 9M length
- Heavy-duty nylon construction
- Ideal for difficult bogged recoveries

8T NYLON SNATCH STRAP

A durable recovery strap built for off-road situations, providing the controlled stretch needed for effective vehicle recovery.

- 8T breaking strength
- Up to 20% stretch
- 9M length
- Heavy-duty nylon construction
- Built for tricky bogged situations

16T TREE TRUNK PROTECTOR

A heavy-duty tree trunk protector designed for winching applications, helping distribute the load while protecting trees and recovery gear.

- 16T rated breaking strength
- 2M length
- Heavy-duty polyester webbing
- Helps spread load evenly when winching
- Protects trees and recovery equipment

BUILT FOR **SERIOUS RECOVERY SITUATIONS**

A SYNTHETIC WINCH ROPE

The Xtreme Gravel Gear™ Synthetic Winch Rope is the safest and most reliable upgrade for your 4WD winch. Engineered for strength, durability and ease of use, it delivers dependable performance when you need it most.

- Available in 9mm x 30m – 15,400 lbs breaking strength
- Available in 10mm x 30m – 17,500 lbs breaking strength
- Lightweight synthetic construction for safer winching
- Resistant to kinks, curls and splinters common with steel cable
- Easy to handle and convenient to use
- Made from premium raw materials sourced from the USA
- Braided on German-made machinery for precision and durability
- Ideal upgrade for dependable 4WD winch recoveries

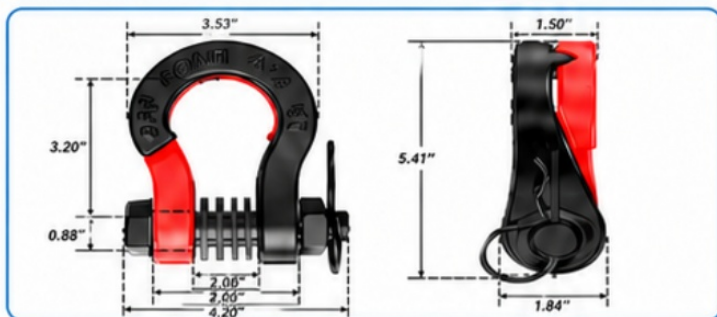

B 8T SPLIT D SHACKLE

The Xtreme Gravel Gear™ Split D Shackle is the ultimate solution for off-road enthusiasts who value both convenience and reliability. This innovative D shackle allows you to keep it mounted to your rig at all times, eliminating the hassle of removing it for recoveries. Simply split the shackle, hook up your tow rope or soft shackle, and you're ready to go.

SKU: XGG-SDS-RB-001

- Innovative split design for quick attachment
- 8-ton load rating for demanding recoveries
- Can be kept mounted on your rig for convenience
- Compatible with tow ropes or soft shackles
- Includes bolts and spacers for installation
- Durable, reliable construction for tough off-road use
- Versatile and ready for a wide range of recovery scenarios

QUICK ATTACHMENT

Split design for fast and easy use

HEAVY-DUTY RECOVERY

Built strong for extreme conditions
